“We the People are the rightful masters of both Congress and the courts, not to overthrow the Constitution but the men who pervert the Constitution.” – Abraham Lincoln

In response to being called out on the carpet for his tyrannical methods, Obama stated publicly, “I am not a dictator.”

Whatever Obama says, you can rest assured he is doing the exact opposite, calling “evil good and good evil” and putting “darkness for light, and light for darkness” (Isaiah 5:20).

To add to Obama’s list of abuses, his administration attempted to justify drone strikes on his own people. The American people are now beginning to realize we are no longer speaking of what happens in Third World countries; it is happening in our own backyard.

What is it that defines a dictator?

Parallel the abuses of tyrant King George III in 1776 to what is happening to the American people under Obama’s administration, and you will see the same tyrannical measures stemming from the same tyrannical ideology.

Replacing King George with Obama, the Declaration of Independence states:

The history of the present [president of the United States] is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted. ...

He has refused his Assent to Laws, the most wholesome and necessary for the public good.

Operation Fast and Furious: Obama, as an accessory to criminal activity, including murder, asserted executive privilege where law as well as court precedent clearly shows it unlawful.

Obama has used criminal measures to attack American immigration law and illegally usurped constitutional laws by unashamedly announcing he will issue work permits to illegal aliens.

As the chief law-enforcement agent, Obama has refused to enforce the Defense of Marriage Act as well as the Voting Rights Act against a domestic terrorist group, the

New Black Panthers.

Obama has been held in contempt of court for refusing to lift the Gulf of Mexico oil-drilling ban.

He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained;

With no constitutional jurisdiction in the area of states laws regarding illegal immigration, Barack Hussein Obama sued states such as Arizona and Alabama for their laws preventing and prosecuting illegal immigration.

He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance.

Czars, anyone? He has sent his EPA, IRS, DOJ, and other gangsters to sue private American businesses and citizens, steal private lands, and assault churches as well as private groups that oppose him.

He has affected to render the Military independent of and superior to the Civil power.

Obama set criminal precedents as he moved the United States military from the congressional chain of command and used them in Libya with no regard to the violation of the War Powers Act. Obama's secretary of defense has advised Congress that the military will go to war upon the authorization of the U.N., NATO, or other global entity, excluding any mention of congressional approval.

These are just a few examples of Obama's "King George" abuses on the American people.

Now the question lies at the feet of America: How are we going to respond?

But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their DUTY, to throw off such Government. ...

It is time for the Declaration of Independence to be resurrected in the same spirit as our
